

# CATALYST

Community Action on Tobacco evaluation system

Washington State Department of Health

Julia Dilley & Stacy Scheel

Joint Conference on Health

October 2002

# CATALYST Purposes

## *Primary*

- Provide standardized reporting of program outputs to WA DOH from local school, community, and tribal programs (for comparison with local surveillance data)
- Enhance contract management

## *Secondary*

- Facilitate collaboration among local programs
- Increase “institutional memory” within organizations
- Decrease the burden, and increase usefulness of reporting for local programs

# Presentation Objectives

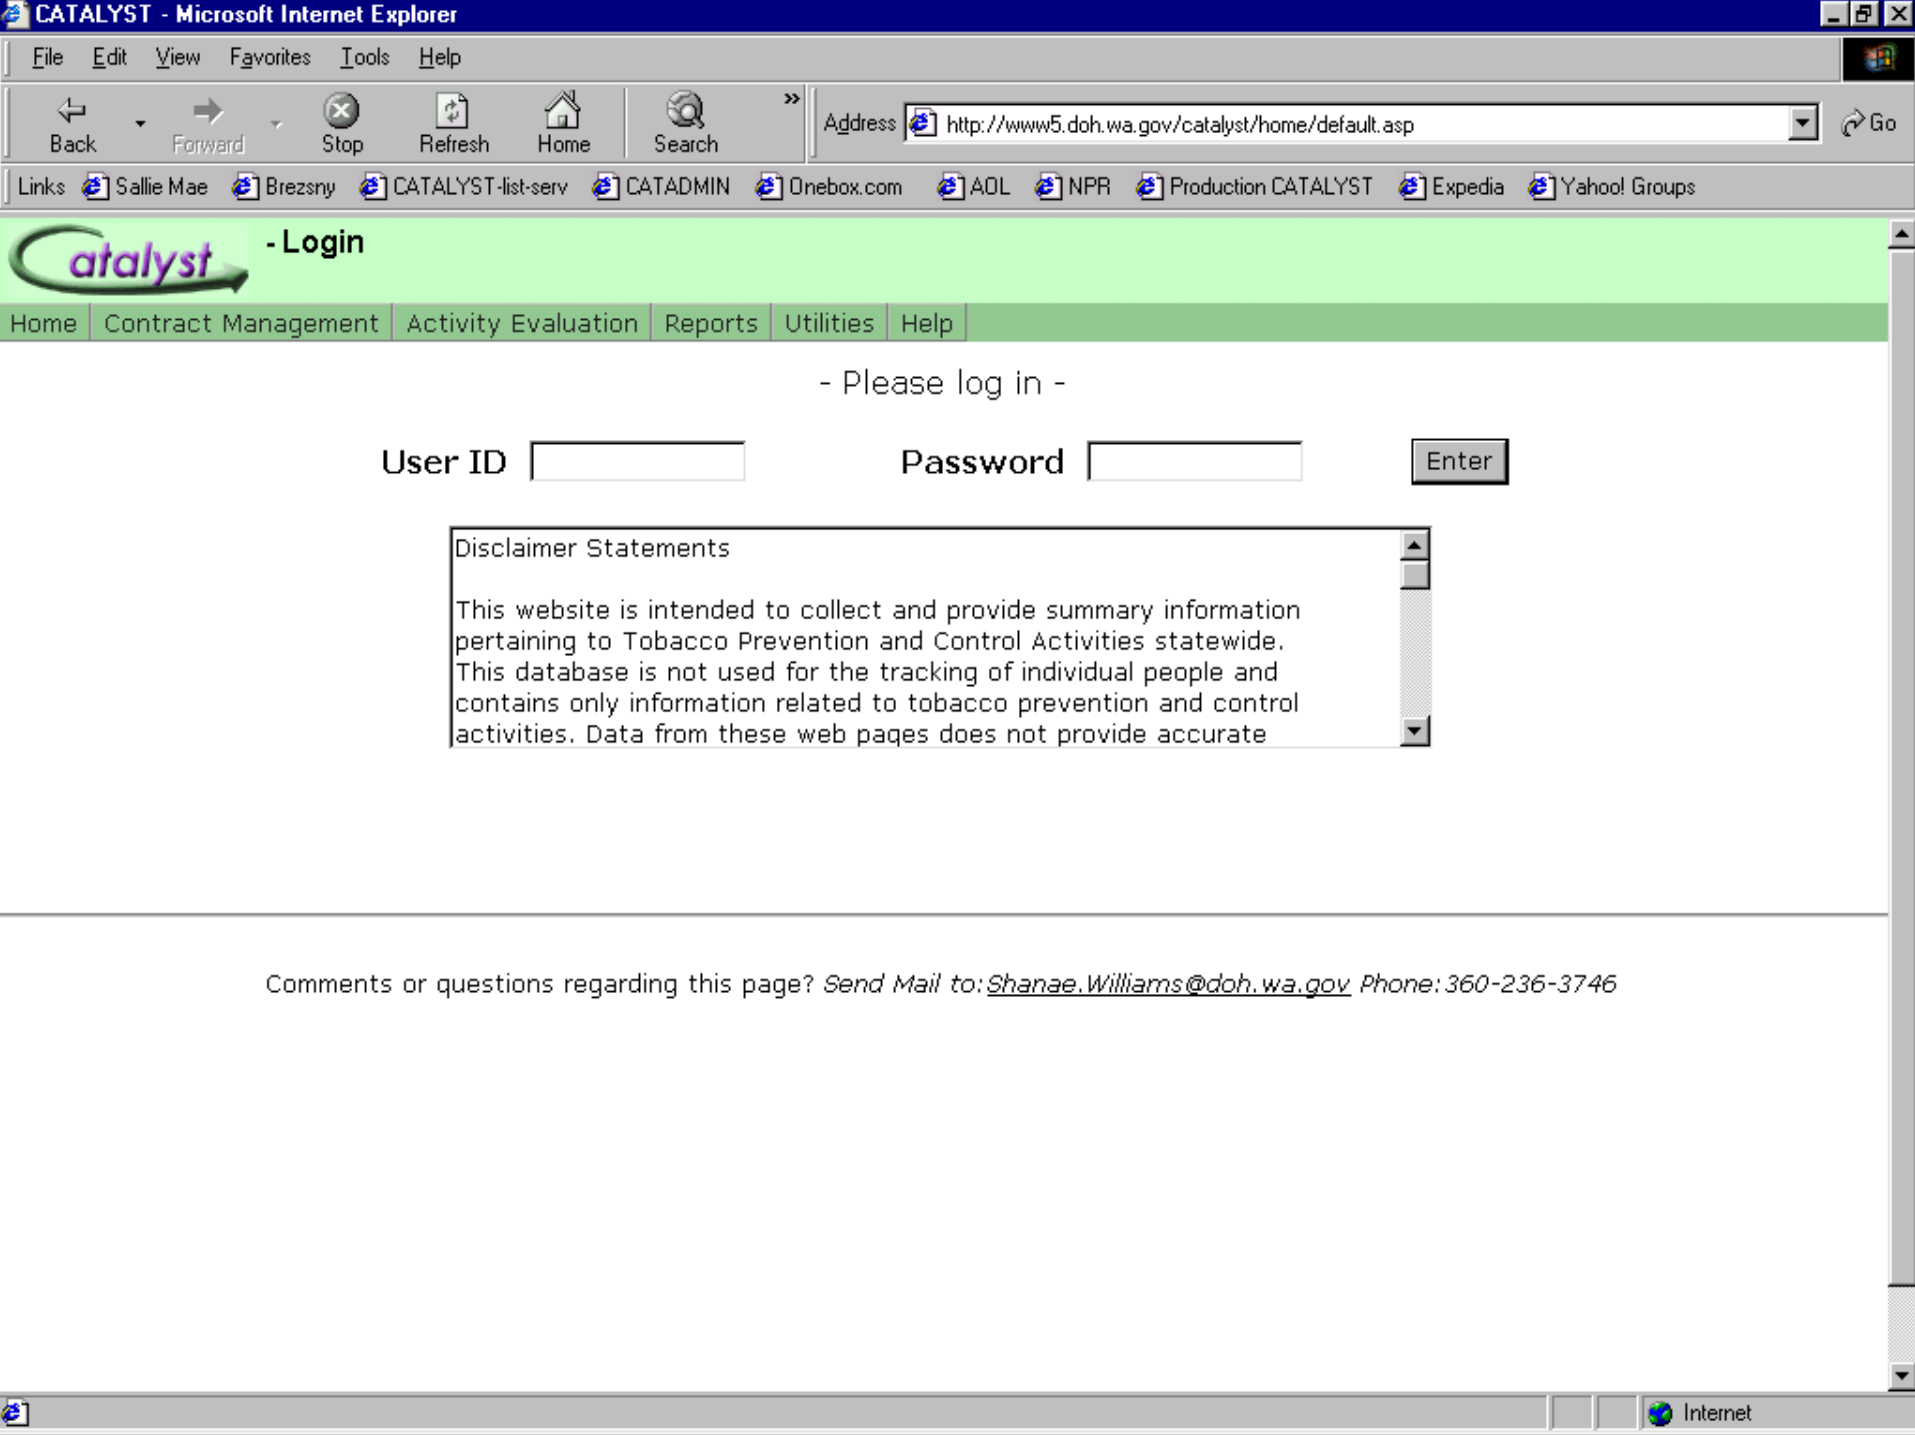

- Describe how CATALYST functions
- Describe how DOH uses CATALYST information for program evaluation and monitoring
- Identify how data from CATALYST can be used by local programs for program improvement

# How It All Began

- Development began in Fall 2000 with contracted programmers and a project manager
- Substantial input from potential users in communities and schools during development
- Phased Development Approach
  - Phase I – Contract Management
  - Phase II – Activity Evaluation
  - Phase III – Enhancements & Maintenance (on-going)
- First Statewide Training (Phase I) June 2001

# What information does CATALYST collect?

- Contact Information (organization, individual)
- Contract (dates, amounts, % per objective)
- Work Plan (activities from a standard list, and estimated number of target audience members to reach)
- Outputs/Events (when/where/how many/what happened)
- Subcontract Information (manage under umbrella contract)
- Pre/Post Test Results (for specific activities such as TATU, trainings, youth diversion programs)
- Tracking Information (compliance checks, requests for information, policies)

Welcome

### Updates made in last 30 days

Implemented: 03/16/02	<b>Actual Activities Detail Report</b>
Description:	The Actual Activities Detail Report has been updated. You will now see all journal entries for a particular activity and a total for the audience numbers. The column headings have been corrected and if you use a date range it will appear in the header. Let us know what you think.
Implemented: 02/25/02	<b>Updated Browser</b>
Description:	CATALYST will be moved into a more secure environment on March 27, 2002. After this time you will need to be using a browser with 128-bit encryption in order to access CATALYST. If we have contacted you about this issue you have one month left to update your browser. If you have questions contact Shanae Williams.
Implemented: 02/25/02	<b>Journal Entries</b>
Description:	The CATALYST journals now accept 5000 characters. We look forward to reading about all of the details of your activities. Enjoy!

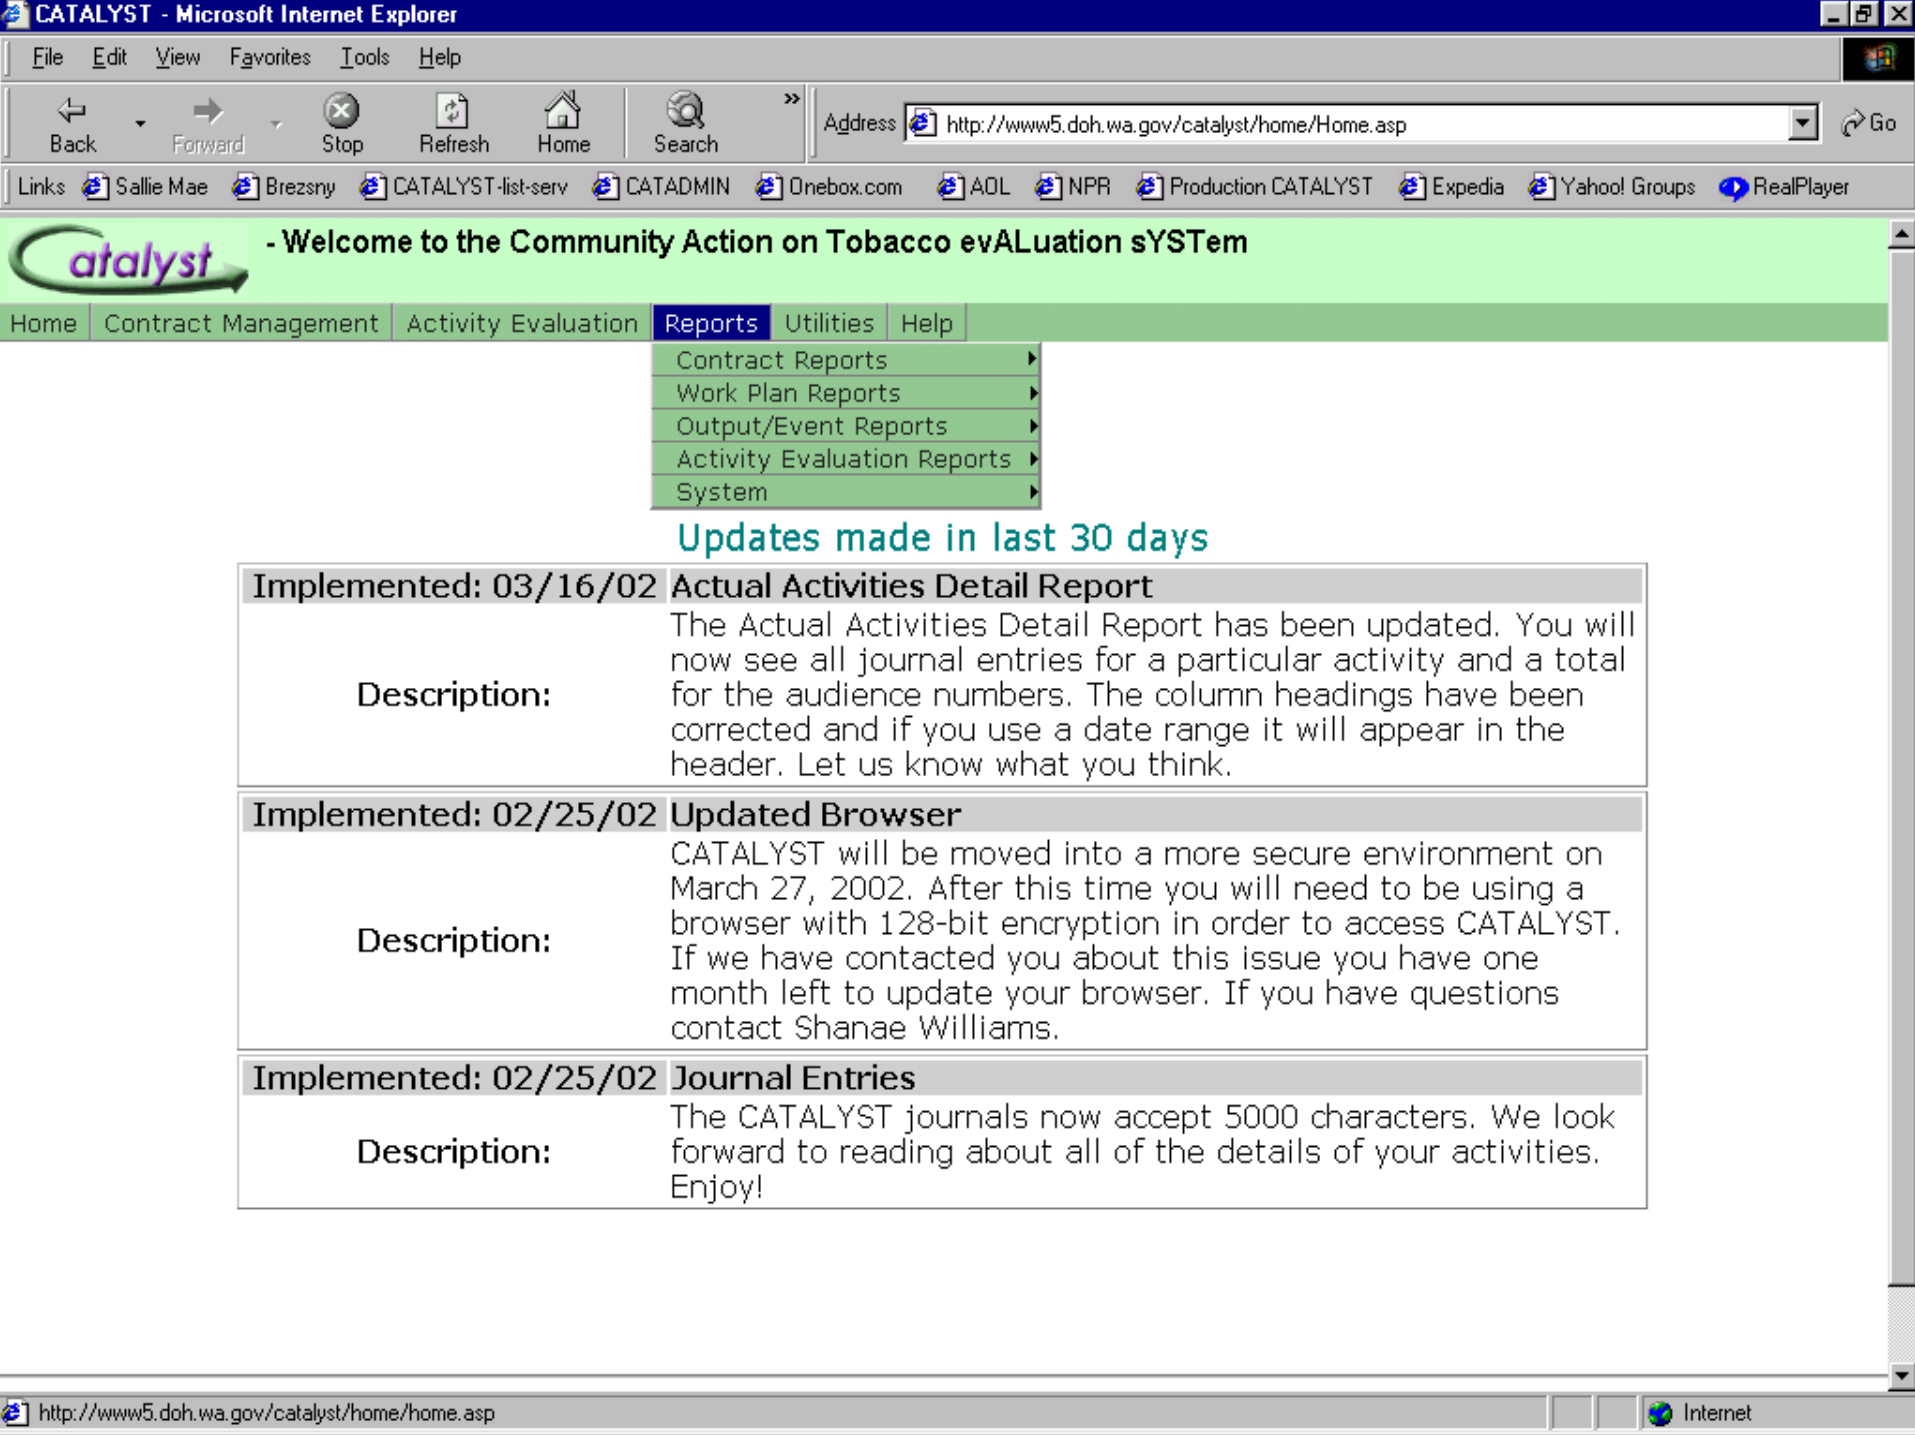

Welcome

# Special Project Surveys

- Some local staff have designed (and collected!) targeted assessment surveys, but did not have capacity for data entry or data management
- CATALYST can provide immediate frequency-level reports for these surveys after entry
- “Data download” allows for further tailored analyses
- Having data located centrally helps communities share resources

# Training & Support

- Training, reference materials, and copies of standardized tools available through the CATALYST User Support-Contractors Tools Web link
- DOH has a full-time staff member who has technical support as her #1 priority
- Ongoing trainings offered for new staff or new users
- DOH maintains a user listserv

# Web-based Reporting is Sexy

---

- Other state and national orgs are moving toward web-based reporting
- DOH is collaborating with DASA, OSPI to attempt to reduce burden of learning/reporting on many different systems at the local level
- Some local programs beginning to use CATALYST for subcontractor reporting

# Future Directions

- Quality improvement for system data – especially qualitative data
- Continued engagement of local partners to enhance and improve the system
- Summarization of activity implementation statewide, regionally, by contractor type, and among specific population groups

# Summary

- Standardized data to track program implementation, locally and statewide – instantly
- Better communication among local programs
- Progressing toward improved contract management approaches
- Improved focus on evaluation issues among all partners
- Helps larger local programs to track subcontractor activities
- Enables targeted outcome-based evaluation of a few activities (youth diversion, TATU, storefront advertising)

# THANK YOU!

---
